Translation into English

Brian Kerridge, C. Eng., Ing. SIA, prepared the initial English translation based on the final draft of the French version.

Members of the SIA Commission 160 and of the Working Groups reviewed individual chapters. Paul Gauvreau reviewed the entire translation. The following people, amongst others, also provided valuable comments on the English text: P.C. Aasheim, Dr. K.J. Eaton, J.-P. Favre, J.R. Mayne, Dr. H. Ruscheweyh, Prof. J. Schneider, Dr. J.E. Spindel and S. Zingg.

Rosemarie Barraud checked the accuracy of the initial translation against the published French version. Simon F. Bailey, Ing. SIA, was responsible for the intergration of all comments into the text and the harmonization of technical expressions and terminology.

This document was editet at ICOM of the Swiss Federal Institute of Technology. The camera-ready document was prepared by J. Lécureux and A.-L. Jossevel.

Prof. Manfred A. Hirt, the chairman of the SIA Commission 160, was responsible for the overall coordination of the translation.

Coming into effect

SIA standart 160 – «Actions on structures» was approved by the SIA delegates at the general assembly held on 18 November 1988 in Bern.

This standart comes into effect on 1 June 1989.

The presiden of the SIA: Prof. Dr. J.-C. Badoux
The secretary general : C. Reinhart
